

DASIC AEROKLEEN[®] AN2001P POLISH

Water dilutable liquid wipe on/wipe off polish

- † Contains no aromatic solvents for extra safety
- † Formulated to wax and polish
- † Safe on all painted aircraft surfaces
- † Safe on all aircraft metals
- † Easily applied
- † Easily removed without excessive rubbing
- † May be applied as a cleaner/polish
- † May be used with all wax applicators
- † Protects aircraft surfaces
- † Conforms to Specifications CSD-1 and AMS1550A.
- † Water dilutable for economy and faster removal

DASIC AEROKLEEN POLISH AN2001P has been developed to complement the existing range of Aerokleen fuselage washing products. **DASIC AEROKLEEN POLISH AN2001P** provides the ideal solution to aircraft cleaning requirements during regular mechanical maintenance periods.

DASIC AEROKLEEN POLISH AN2001P may be easily applied on both painted and unpainted surfaces providing protection against oxidization and ultra-violet light. The product readily removes surface film, oxidized paint and exhaust residues. It is, therefore, an ideal product for use when restrictions are placed upon the use of water required for conventional cleaning. The restoration of lustre to old paintwork using **DASIC AEROKLEEN POLISH AN2001P** provides both job satisfaction and passenger appeal.

APPLICATIONS

Apply **DASIC AEROKLEEN POLISH AN2001P** to the aircraft surface with a suitable applicator. The polish is then allowed to dry to an infinite haze and wipe off with a clean cloth or towel. The polish may be used with a mechanical buffer, if desired.
